MEDICARE PART A–D

Who
- 65 or older who have paid into Medicare for 10 years and receive Social Security payments
- Below the age of 65 qualify if they are living with permanent disability, end-stage renal disease, or Lou Gehrig’s disease

Part A
- Covers inpatient hospital care and some home and hospice care

Part B
- For outpatient visits, visits to primary care, and preventative care
- Diabetes testing supplies, such as test strips and lancets

Part C
- Medicare approved private insurance called “Medicare Advantage” provides all Part A and Part B, sometimes Part D

Part D
- Prescription Drug (Rx) Coverage for insulin, oral medications, and other regulation medications
- Pays into premiums, deductibles, and co-insurance
