

OUR CREDENTIALS

The Diabetes Foundation (DF) was founded in 1990 to fill a critical need in diabetes care across the state of New Jersey.

Our initial program, Medication Assistance, was designed to provide a short-term supply of diabetes medications to children and adults in need of emergency support. Our services help people overcome barriers to care that includes healthcare insurance, income, citizenship, technology and language.

THANKS AGAIN FOR BEING SUCH A SOURCE OF INCREDIBLE KNOWLEDGE AND GUIDANCE. WHAT A GIFT YOU ARE TO ALL WHO ATTEND YOUR SESSIONS AND HAVE THE GOOD FORTUNE TO HAVE YOU ON OUR SIDE. THANK YOU! -PENNY

Over our 30-year history, DF has expanded its services to become a “one-stop shop” where an individual with any type of diabetes can access multiple services for free. We help people obtain:

- Education
- Social support
- Financial assistance including medication, diabetes supplies, transportation, A1C screenings, campership
- Personal support to design a diabetes care plan that offers available possibilities for affordable and accessible care

Since its inception, the DF has helped tens of thousands of individuals and their families face the challenges of diabetes to manage their blood sugar and live healthier lives.

DIABETES EDUCATION
ACCREDITATION PROGRAM

The Diabetes Foundation was accredited by the Association of Diabetes Care and Education Specialists to offer the CDC’s Diabetes-Self Management Education and Support Program in 2021. We offer a full eight-hour course covering eight areas of diabetes care and shorter courses covering one topic per session.

Contributions to DF, a 501(c)(3) non-profit, are tax-deductible (Tax ID: 22-3551926) and deliver an excellent return for those interesting in investing.
